Attachments on your Digital Newsroom.

The beauty of the Digital Newsroom from Manifest is that you can provide all of the information required by journalists, bloggers or any other audience without the hassle of sending them via email.

The DNR holds the files ready for download or viewing, and through our comprehensive analytics reports, you will know what files readers downloaded and what they didn't – helping you to refine and optimise content creation.

You can add any document to a DNR, including:

High resolution images (.jpg, .tif, .gif, .png and more)

Word documents

Multi-page PDFs

Excel Spreadsheets

Google Docs

Zip folders

Sound files (.mp3, .wav and more)

Video files (.wmv, .flv, .mov, .avi and more)

If you have any questions, please feel free to email us:
